Dave Erchull, GRASP Project Manager

The objective of the artprotect™ program is to assist owners of art in their loss of control efforts. The recognition of these art storage companies and specific locations is purely advisory and based upon conditions observed and information made available to our agents at the time of the risk assessment survey. While our agents have endeavoured to discover those unsafe acts or conditions which could contribute to an accident or loss, it cannot be assumed that they have detected every loss potential or hazard, and nor does this assure compliance with any federal, state or local code or law. We recommend that art storage companies and owners of art undertake their own due diligence. We assume no responsibility for updating any information to reflect changing conditions. In no event will Global Risk Evaluations Ltd or our agents have any liability for any special, indirect, incidental or consequential damages arising in any way as a result of your reliance on this information. The issuance of this certificate by GREvL shall not be construed as indicating the existence or availability of coverage under any policy for any property or type of loss or damage.
